## Trust the Accountability

Global trade is unforgiving. It compels a global shipper to expect more. It challenges a logistics provider to go beyond promises, to deliver uncommon service uncompromised by big company bureaucracy.

BDP International is one of the leading privately held freight logistics/transportation management firms based in the U.S. It operates freight logistics centers in more than 115 cities throughout the world and a network of subsidiaries, joint ventures and strategic partnerships in 122 countries.

Today, we continue to pursue that same vision, working every day to earn our customers' trust. A familiar face. A live voice on the line. A more passionate brand of service you would expect from a family-owned enterprise.

At BDP Australia, we never lose sight of what matters most. Solid execution and relationships driven by new fashioned ideas applied to old fashioned hard work and local expertise. More than a promise, it comes from a culture of caring. Using the best transportation and logistics technology tools and exercising an intensive desire to help our customers compete and win.

We are BDP. A total of 3000 employees worldwide. In Australia and every major import / export market around the world.

## Freight Forwarding

Our worldwide forwarding expertise is among the best you'll find anywhere.

- Full service ocean and air forwarding
- Documentation for all processes
- Real-time status shipment tracking and status reports
- Pro-active management ahead of exceptions leading to time and cost savings
- Cargo inspection coordination
- Coordination of inland transportation and scheduling
- Freight negotiation and carrier cost maintenance
- Complete documentation services

## Transportation

### AIR

- One-stop shopping – door-to-door
- Back-to-back – direct and indirect routing
- Control and reliability – online tracking capabilities and global documentation
- Dedicated hubs for consolidation / de-consolidation
- 24/7 service for critical same day shipments

### OCEAN

- Door-to-door import and export service from inland points to and from multiple international destinations
- Highly competitive rates through leveraged volume procurement
- Best-in-class carriers and multiple options by trade lanes and sectors
- Hazardous cargo and perishable goods expertise
- FCL and LCL services to all destinations

### LAND

- Competitive rates through leveraged buying power
- Local and regional trucking services
- FTL/LTL, FCL/LCL abilities
- Intermodal capabilities (truck/coastal vessel and /or truck/rail)

## Customs Brokerage

- In house brokers with expertise in all facets of Customs and Quarantine regulations including:
  - Tariff advice information
  - Auditing assistance
