Global Logistics & Transportation Solutions

certainty you

Expect reliability you can trust. When it comes to the movement of your cargo, you don't want uncertainty. Or costly errors.

Expectations must be met. Promises made but not delivered can result in lost revenue and lost customers. Which is why you need the right resources in all the right places.

Ocean transportation management is about control of your shipments at all levels, every second of every day. BDP can put it all together for you—hands-on, professional management. For smooth sailing of your cargo. Anywhere in the world.

Service excellence should come as no surprise. That's why we look for the best combination of service and price by leveraging your business volumes worldwide. We help you to tightly manage costs—ensuring your carrier contracts are optimized to the last penny. We partner with the best—providing multiple solutions to meet your multiple needs.

You also need visibility you can depend on. Smart business decisions are only as good as the data that drives them. BDP's industry-leading ocean transportation management tools ensure complete control, visibility and transparency of all your shipments.

You can count on

From purchase order to delivery. Not only cargo visibility but also online visibility. For every milestone in your International Order Execution Process.

Benefit from our portfolio of global lanes and single-source services. A dependable global network of wholly owned operations, joint ventures and affiliates in over 140 countries. Solid operations and experienced, responsive staff committed to your business.
