

Delivering the Best Solutions

Regulatory Compliance

The BDP Experience

Regulatory compliance is a key service and differentiator in the BDP Experience. We draw upon over 50 years of industry knowledge and expertise to guide our clients through the complexities of international trade. Our team of experts is dedicated to delivering our customers the global scope and local expertise needed to win in today's competitive environment.

At our core, we are committed to developing best-in-class processes, procedures and corporate policies to move data and goods around the world, while meeting all regulatory concerns that are connected with the products that we handle.

We pride ourselves on our ability to stay ahead of the rapidly changing laws and regulations in the industry, and we strive to be welcomed and respected by all Government agencies. We are often asked to participate in Customs pilot programs and to give our input on program changes, giving us a unique opportunity to have a voice in the industry and the ability to impact the process itself.

We are an active member of various industry organizations globally, including:

Proven Excellence

What We Do

In today's global business environment, import/export management is a complicated task. The world of regulations is constantly changing. The goal of BDP Compliance is to keep our customers informed of and prepared for such changes. When a change occurs, we utilize our industry experience to understand the change and any potential impacts it could have on our customers. We then work with operations to develop a game plan, communicate with our customers, and make any necessary adjustments in advance. Through such diligence, we are able to ensure that there are no stoppages in the supply chain.

Additional compliance services & products:

- Education & Training
- Risk Management
- Security
- Dangerous Goods
- Documentation
- Sustainability

Industry-Leading Innovation

BDP|SMART SUITE

BDP Smart® is your comprehensive order management solution to monitor and manage shipments across your supply chain. BDP Smart® features customizable compliance dashboards with documentary requirements per country and Free Trade Agreement information.

BDP|SMART GCA

BDP Smart® Global Compliance Assessment is a tool global companies can use to monitor, act on and improve compliance responsibilities. It features post-entry / export self-assessment of key compliance areas completed by site locations. The GCA is a global portal where input is reviewed and scored by trade compliance personnel.

Responsible, safe and sustainable

At BDP, our values guide us, define us, and inspire us. They are our underlying motivation in every decision we make and action we take. At the heart of these values is our commitment to social responsibility.

As such, we are fully committed to being an industry leader in corporate sustainability. Through education and compliance, we seek to operate in the most environmentally responsible manner. Our employees participate in sustainable initiatives including interactive training programs, energy conservation, and recycling. All initiatives are championed by the Environmental, Health & Safety Ambassadors, a committee specifically dedicated to social responsibility.

We are also proud to be a American Chemistry Council (ACC) Partner and truly dedicated to their Responsible Care® initiative. Responsible Care® is a global environmental, health, safety and security performance initiative by the ACC for the chemical industry. This program exemplifies our commitment to the responsible, safe and sustainable shipment of chemicals; a commitment we have proven time and time again...
