

WE EMPOWER YOUR GROWTH

A proven industry
leader in logistics data,
information, and supply
chain transformation

ABOUT US

WHO WE ARE

We are BridgeNet Solutions, a BDP International Company. We empower your growth by discovering never-before seen opportunities in your value chain. We specialize in data analytics relative to transportation. XONAR is our cloud based data warehouse that enables real-time analytics and benchmarking allowing companies to easily manage complex global supply chains.

By combining the experience, operational excellence and global footprint of BDP with the technology, analytics and data-based solutions of BridgeNet we offer truly unique, carrier-neutral and best-in-class solutions, delivering sustainable value.

Delivering visibility into your total cost of ownership from inventory to freight spend.
