Innovation

BDP SMART

BDP also offers a proprietary suite of visibility and order management applications to provide pro-active control over your end-to-end supply chain.

BDP SMART RETAIL

BDP Smart Retail® is a global shipment visibility tool that allows you to view shipping documents, track, and rely upon up-to-date inventory information for global rates, booking requests and vessel schedules.

BDP VU

BDP Smart Vu® is the all-inclusive solution to order management. From requisition and inception of PO through final delivery, Smart Vu® serves as the centralized portal for vendor and supplier management, allowing you to track milestones and integrate all parties in the supply chain.
