

Chemical Logistics

Industry Challenges

The chemical industry presents unique and ever-evolving supply chain challenges.

Adherence to the complicated regulatory environment is crucial to ensure the safe and sustainable shipment of goods. A high degree of visibility and accuracy are necessary to address the unique product and transport requirements.

Don't go it alone. In this market, companies must have an in-depth understanding of the impact such factors have on their supply chain.

“We wanted to work with one of the best companies in the market...now we have a global view of everything – we can track the entire shipment, see volumes, and how multiple carriers are performing.”

–Royal DSM

The BDP Experience

At BDP, we know chemicals. We are an industry leader with over 50 years of chemical logistics experience. Today, 88% of our business serves the chemical industry. Eight of the world's top ten chemical companies call BDP a preferred provider. We handle 2.4 million TEUs of chemicals and 80 million kilograms of air freight chemicals on an annual basis.

BDP is designed to handle chemicals.

Our internal operating practices and information systems are built to handle the unique requirements of the industry. Our compliance experts provide unparalleled training and insights on dangerous goods, safety, environment and security compliance regulations for clients and employees.

BDP personnel offer expertise in chemical-specific transport modes. We also offer the industry's leading suite of technology, bringing unprecedented visibility to your supply chain.

Safety and sustainability go hand-in-hand. We are honored to be a Responsible Care® participant, and have been named Partner of the Year for 2016, 2017 and 2020 by the American Chemistry Council.

DID YOU KNOW?

BDP is a three time Responsible Care® Partner of the Year

A dedicated team of specialists provides true integration of services that help improve the bottom line and ensures cargo is safe, secure and compliant.

Innovation

BDP SMART

BDP's leading edge technology provides the visibility and certainty needed to put you firmly in control of the international order to cash cycle.

BDP SMART CHEMICAL

Chemical customers enjoy a unique experience within the BDP Smart application tailored to the industry. Smart Chemical features include a customizable dashboard, an interactive map highlighting top trade lanes and alerts, and instant hazardous cargo visibility. Customers gain access to trade documentation, utilize standard and custom reporting, and set up custom alerts for maximum order efficiency.

BDP SMART TOWER

The BDP Smart Tower application is a resource for asset visibility and optimization. With Smart Tower, customers can monitor asset locations daily, maximize asset utilization, and coordinate maintenance and repairs to reduce equipment downtime.
